

# Stained Glass Angel

- Print and cut out the angel as well as a piece of wax paper in the shape of the angel.
- Cut the inside of the angel out.
- Spread a thin layer of white glue on the wax paper.
- Randomly place different colored pieces of torn tissue paper on the wax paper covering the entire area.
- Let dry (may need to cover with a heavy book to keep it from rolling up)
- Glue the angel silhouette on top, matching the edges.
- Hang in a sunny window.
