

Decorate 3 trees. Or use one as template to create 3 or 4 trees on construction paper or cardstock. Cut out and fold each in half vertically with the design folded in. Unfold and glue the back of each tree. Attach 1/2 of Tree A to 1/2 Tree B. Attach 1/2 of Tree B to Tree C. Finish by attaching remaining 1/2 tree C to remaining tree A to create a 3D tree.
